Professional Experience:

Project #1 Shopping Cart Application (SCA)
[PRM � Products Rewards Management]
Shopping Cart application is a real-time service. It is used to get the list of categories,
Description products for Tesco bank customers and also perform products redemption against of
reward points.
To implement this, we developed some APIs. A few of them are as follows :
1. get Categories : To get the list of categories
2. get Products : To get the list of products based on categories
3. redemption : To redeem the products based on their reward points
Responsibilities ? Involved in Client interaction on regular basis to understand the Business of the
Client.
? Involved in the Analysis, Design, Coding, modification and implementation of user
requirements in the SCA application.

? Developed Resource layer and Process layer in provider side.
? Developed User-defined Exceptions for each request and response.
? Used Spring Ioc for delegating the request between layer.
? Involved in performing Unit testing using JUnit, Mockito, Power Mockito

Environment Spring 4.x, JAX-RS, Oracle10g, Design Patterns, Java, JSP, SVN, Eclipse JEE and Tomcat Server,
Maven

Shiva Techno tonics | Summer Intern

? Learned the Software Development process, various roles and
responsibilities.
? Worked as UI Developer and designed Application using JSP, Java , Spring MVC, Spring
JDBC, CSS, JavaScript, and Bootstrap Framework and for Database Connect using MySQL
Workbench.

Student Management Application (summer internship project)

? Develop A Student Management Application that showing the list of all student and the
data flitch form the Database.

? We have to create the from in that from you have to fill the all student record and it
showing the list and in that list you have to update, delete, and get the information for
particular student we have doing all the performance in student management
application.

? Contributed as the Full-Stack Developer using HTML, CSS, JavaScript web technologies and from Development using Java, JSP, Spring MVC, Spring JDBC, and doing database communication using MySQL database.
